Dear Halt, Jr., Esq.:

Please be advised that we have received the Official Letter as enclosed to require the Client amend the clear typographic error of the Chinese title for the term "Recovery". Further, please note there is a patent search report attached in the above-mentioned Office Action received on December 14, 2009.

In view of the above, we will directly rectify this alleged error, which is an intentional error, i.e. to correct the Chinese expression of the term "Recovery" in Chinese title from "回轉" to "回復" in order to expedite the allowance. It is believed this application will be allowed soon. If there are any "desired" amendments, please take immediate actions. Specifically, as soon as these minor errors have been respectively dealt with, we can no more secure any opportunity to make voluntary amendments for this application.

Please let us have your instructions in this respect well ahead of March 13, 2010, the date on which the term set for response expires, in order that we can act accordingly.
